Molebatso Domingo Maesela

72 Rissik Street Pretoria, Sunnyside molebatsodomingo@gmail.com 0796182220

SUMMARY

Motivated and customer-focused IT Technical Support Engineer with 2 years of experience in providing remote and onsite support. Skilled in diagnosing hardware/software issues, managing support tickets, onboarding clients, and delivering light pre-sales assistance. Proven ability to communicate technical solutions to non-technical users, ensuring smooth user experience and client satisfaction.

EXPERIENCE

IT Technician Support

Emperor's Palace **July 2024 - June 2025, Kempton Park, Gauteng**

- **Delivered** first-line support for staff across hotel, casino, and conference operations, ensuring rapid issue resolution.
- **Diagnosed and resolved** hardware, software, printer, and network-related problems.
- **Maintained** and supported Point-of-Sale (POS) systems used across restaurants and retail outlets.
- **Installed and configured** desktops, laptops, and peripheral devices for new and existing employees.
- **Monitored** system performance and escalated critical issues to senior IT teams or vendors when necessary.
- **Documented** support cases, solutions, and asset changes in internal tracking systems.
- **Collaborated** with multiple departments to ensure uninterrupted IT services for guests and staff.
- **Supported** network troubleshooting including Wi-Fi, cable management, and IP configuration.

Presales Engineer

Cyberrey **August 2023 - May 2024, London (Remote)**

- Collaborated closely with the sales and technical teams to understand customer requirements and recommend suitable cybersecurity solutions.
- Assisted in preparing technical documentation, product presentations, and demo environments for client meetings.
- Participated in discovery sessions to gather client needs and supported solution design discussions.
- Responded to client queries and RFPs (Requests for Proposal) with detailed technical input under supervision.
- Developed a strong understanding of CyberRey's cybersecurity products and industry best practices.
- Gained hands-on experience with vulnerability assessment tools, firewalls, and endpoint protection platforms.

Junior Software Developer Intern

Moepi Publishing **June 2022 - May 2023, Pretoria, Hatfield**

- Assisted in the development and maintenance of internal publishing software using HTML, CSS, JavaScript, Python and Java.
- Collaborated with the senior development team to implement new features and fix bugs across digital platforms.
- Participated in daily stand-up meetings, sprint planning, and code reviews using Agile methodologies.
- Conducted software testing, debugging, and documentation of application processes.
- Supported integration of digital content management systems and assisted with database updates using MySQL.
- Gained hands-on experience in version control using Git and GitHub.
- Created responsive web components for author and editor portals, enhancing user experience.
